

December 15, 2009 CAMS Meetings

The 15 Dec meeting was hosted by Bill and Adel Knox in their home. The meetings at the Knox home are always fun but as with all of our meetings at member's homes, our waistlines take a terrible hit.

Present were Bob k, Scott M, Bruce D, Gordon B, Mike L, Bill D, Ben D and of course Bill K.

A number of projects hit the table among them Bill K's 06 Mustang and Vietnam era river patrol boat.

Mike L showed off his building skills with his RAAF F-111 and an Airbus 319. Of special note were Mikes hand made graphics for the Airbus.

Gordon B cracked the wrappings on his new acquisition of the 1/72 WWII RCN Corvette, a bit of a departure as Gordon is a car guy.

Scott was there showing off his Christmas present to himself a new Harder & Steenbeck Infinity airbrush. Harder & Steenbeck is new supplier for Scott, with some interesting stuff.

Once our appetite for good models and good eats had been satisfied we bit farewell and wished all a happy holiday.
