

CAMS 03 Nov 2009 Meeting

The November 3rd CAMS meeting took place at Sobey's, Regent St. In attendance were Bob Kerasiotis, Scott Millican, Bill Knox, Bill & Matt Daisley, Mike Lewis, Bruce Doiron and Pat Ryan.

A general discussion evolved about different ways that we can improve the CAMS website including the visitor input page, member's galleries, and ongoing build stories.

The meeting schedule for the New Year was discussed with a couple members coming forward and offering their homes for upcoming meeting.

In conjunction with Royal Canadian Air Cadets 333 (Lord Beaverbrook) Squadron, CAMS members Bill & Ben Daisley and George Budaker are assisting in a program with the cadets on model building and indoor RC Aircraft flying. The goal of the program is to introduce the hobby to the younger generation. Bill D is in the process of writing up an article which will follow the progress of the program, so stay tuned for the story.

Bob K updated members on the planning for the 2010 Spring Show. The majority of the forms are ready and everything will be posted on the website after Christmas. Hopefully this will assist visitors to the show and help speed up registrations.

The meeting adjourned with a reminder to everyone about the next meeting on 17 Nov 09 at Elm City Hobbies. Scott is planning on showing a DVD featuring product from Harder & Steenbeck, a German airbrush company. Hope to see you there!
